

are immediately available for view or download, others can be rented and you can also ask us to buy those that are not currently available in full-text.

For more detailed information, please consult the **Guide to some Electronic Resources**.

Here are some Medicine e-books that are available via the library catalogue:

Underwood's pathology: a clinical approach. Edited by Simon Cross. (6th ed.) (2013)

A dictionary of epidemiology. Edited by Miquel Porta. (6th ed.) (2014)

E-Journals. Most journals for medicine can be accessed via RSM through the Full Text Finder under e-resources.

Internet Sources. The Library website and the Library page on Moodle contain many links to other useful sites including search engines, general reference sites and subject-specific resources. For access information, please consult the **Guide to some Electronic Resources**.

The following are some of the subject-specific resources:

NHS Evidence (including A-Z of topics)

NICE (National Institute for Health and Clinical Excellence)

Pubmed and MESH (Medical Subject Headings through the US National Library of Medicine)

Are you still struggling to find and / or search these or other resources?

For help or to book an information skills training session, contact: library@buckingham.ac.uk or on 01280 828369.

Location

The Medicine collection is housed at the Franciscan Library at Verney Park. On the ground floor near the library desk you can find photocopy and printing facilities. Short loan books are held behind the library desk. You can find weekly loans in the corridor to the main library. General loans are on the first floor of the main reading room. This part of the library is also a quiet study area.

Printed materials

Books. Key course texts are in the majority available as week loan items and general loan items, supplementary readings are available on general loan.

All books stocked by the Library are recorded on the online catalogue, *eLibrary*, which can be freely accessed via the Internet at <http://opac.buckingham.ac.uk/uhtbin/webcat>. Reading lists are also recorded here. Most of the Medicine books have Dewey classmarks starting with **610** to **619**. The first three letters of an author's surname are then added to make it easier to locate them quickly on the shelf. **Qto** indicates an oversized book. **SLN** denotes Short Loan and **WLN** denotes Week Loan.

More information on borrowing can be found in our **Guide to Library Services**.

Here is a small selection of available print books:

Book details	Shelf location / Call number
Gray's anatomy for students. Richard L. Drake, A. Wayne Vogl and Adam W. M. Mitchell. (3 rd ed.) (2015)	611DRA(WLN)
Ganong's review of medical physiology. Kim E. Barrett, Susan M. Barman, Scott Boitano and Heddwen L. Brooks. (25 th , intern. ed.) (2016)	QTO612GAN(WLN)
Functional histology. Jeffrey B. Kerr. (2nd ed.) (2010)	QTO611.018KER
Medicine at a glance. Ed. By Patrick Davey. (4 th ed.) (2014)	QTO616DAV

Electronic Resources

In addition to printed resources we also offer online content through the library web pages and via the Royal Society of Medicine (RSM) website.

For University of Buckingham electronic resources visit:

<http://www.buckingham.ac.uk/life/library/electronicinformation>

Or use this link if you are off campus:

<http://www.buckingham.ac.uk/life/library/electronicinformation/databases/off-campus>

For RSM electronic resources use the following link. You can log-in using your RSM username and password (made available to you in induction week):

<http://www.rsm.ac.uk>

Databases. The Library's collections include online research databases providing abstracts or full-text of journal articles and reports. Please refer to our **Guide to EBSCO Discovery (EDS)** and **Guide to some Electronic Resources** for more information, including access and search advice.

A collection of relevant databases for Medicine can be accessed through the RSM website.

Here are some available databases:

Medline and Embase (access via RSM)

EBSCO DiscoveryService (access via Library website, including the **British National Formulary**)

E-books. In addition to our print books, we have a sizeable collection of e-books. Our largest e-book collection is on Dawsonera. Additionally, you have also access to e-books through the Full Text Finder and ClinicalKey on the RSM website. Some of the e-books on Dawsonera
